Respected Sir,

Subject: Submission of FDP completion reports along with documents, which was conducted in our institution from 20th September 2021 to 01st October 2021 (Ref. No. 34-67/99/FDC/FDP/P-1/2019-20)

We whole heartedly thank AICTE for accepting the proposal and providing adequate funds for conducting the Faculty Development Program. Our institution has conducted FDP on "3D Printing Technology in Engineering Education and Research" during the period from 20th September to 01st October 2021. This was sponsored by AICTE, New Delhi. We are herewith submitting the completion report along with all the required documents as per guidelines of AICTE. Kindly acknowledge the receipt and do the needful.

Thanking you,

Yours faithfully,

Instructions/Guidelines to be followed by the University/Institution

I. Disbursement of funds to University/Institutions

- a. The full amount of the grant sanctioned is being released as advance to the University/Institute.
- b. The amount spent by the institute on the conduct of FDP shall be adjusted on the basis of utilization certificate and detailed expenditure statement submitted by the University/Institution on the prescribed format along with other mandatory documents viz feedback form, copy of proceedings and completion report etc.
- c. The above said amount of grant shall be refunded back to AICTE if the Letter of Approval (LOA) / Extension of Approval (EOA) is not issued by AICTE to the institute for the academic year 2020-21.

II Maintenance of Accounts

- a. The Institute shall strictly follow the provisions laid down in the scheme document as available on the portal.
- b. Funds covered by this grant shall be kept separately and would not be mixed up with other funds so as to know the amount of interest accrued on the grant.
- c. The University/College/Institute shall maintain proper accounts of the expenditure out of the grants, which shall be utilized only on approved items of expenditure.
- d. The grant is intended to cover items of expenditure connected with the Faculty Development Programme such as Boarding & Lodging to the participants, TA to outstation participants, Honorarium to Course Coordinator, reading material to participants, Honorarium to resource persons, TA/DA to resource persons including two outstations resource persons & working expenses (reprographic services, postage, transport, daily wages, tea/coffee etc).

III. Conduct of test and issuance of certificate

A test shall be conducted by Program Monitoring Committee (PMC) at the end of the program and joint certificates shall be issued (by AICTE & conducting institute) to those participants who have attended the program and have scored minimum 60% marks in the test.

IV. Submission of Documents by the University/Institutions to AICTE

- a. The following mandatory relevant documents are required to be submitted by the University/Institution within one month of the completion of the program:-
 - (i) Original Statement of actual expenditure & Utilization Certificate in the prescribed proforma duly signed by the Head of the institution and countersigned by Registrar/Finance Officer/Govt. Auditor. In case of self-financing/private institutions, Statement of actual Expenditure & Utilization Certificate are required to be audited & signed and sealed by a Chartered Accountant endorsing the membership number and complete postal address. Format for the same is available on AICTE web portal.

The University/Institution is not required to submit bills/vouchers/invoices etc for the expenditure incurred out of recurring grants. However, such copies of bills/vouchers/invoices shall be digitized by respective institutions receiving grant and

uploaded scanned copies of such bills/vouchers/invoices etc on the portal for availability and view at any point of time.

- (ii) Feedback form in the prescribed proforma.
 - (iii) Copy of the proceedings and completion report.
 - (iv) List of candidates who have successfully completed the program on the basis of the test conducted by Program Monitoring Committee (PMC).
 - (v) Report submitted by Program Monitoring Committee (PMC).
- b. The amount of the grant shall be adjusted on submission of utilization certificate & detailed expenditure statement by University/Institution. On receipt of these documents, the total amount of financial assistance, admissible as per the norms, shall be worked out and grant-in-aid adjusted.

V. General instructions

- a. **Preferably 10% of the participants may be industry professionals deputed by industry. Further, not more than 02 participants shall be from the host institution/group of institutions.**
- b. **The grant released/or part thereof, if remains unutilized for any reason after expiry of stipulated time period (for any reasons to include unspent amount, interest , penalty if imposed) shall be refunded back to AICTE in the form of RTGS payable to Member Secretary, AICTE, New Delhi. The bank details of AICTE as under:-**
- | | | |
|----------------------------|---|------------------------------------|
| Account No | : | 55113199952 |
| Name of the Account Holder | : | Member Secretary, AICTE, New Delhi |
| Bank Name | : | State Bank of India |
| Branch Name | : | Shastri Bhawan, New Delhi |
| IFSC Code | : | SBIN0050203 |
- c. **The FDP will be organized for 2 weeks with minimum 40 participants. The approved FDP shall be conducted within six months from the date of release of funds..**
- d. **If programme is not conducted within the period of six months of the release of the 100% grant, the released amount, alongwith interest accrued thereon, has to be necessarily returned back to AICTE within a month through RTGS.**
- e. The expenditure under the Heads '**Honorarium to Course Coordinator**' and '**Honorarium to Resource Persons**' shall not exceed 1% & 20% respectively of the total sanctioned grant for the Programme. However, overall expenditure shall not exceed the funds sanctioned for the Programme.
- f. Any extra money required to complete the programme must be borne by the institute from their own resources. But the quality of the activities should not be compromised.
- g. Any unavoidable circumstantial change in the program with respect to name of Project Coordinator, Venue and date for organizing FDP would mandatorily require prior approval of the Council. All such requests should be addressed to AICTE, in advance, recording the specific reasons for proposed changes, failing which the offer for the grant already issued would be treated as automatically withdrawn and the financial assistance released in favour of the beneficiary institution shall be refunded immediately to the Council. Kindly mention the File No. 34-67/99/FDC/FDP/P-1/2019-20 in your future correspondence.
- h. **Steering Committee/Project Monitoring Committee (PMC)** is required to be constituted at institutional level. The constitution of the PEC shall be as under:
- (i) Principal/Director/Registrar of the institution (Chairperson).
 - (ii) Coordinator of the program (Member Secretary).
 - (iii) Two HoDs and one subject expert (members).

The members of the said PMC shall not be below the rank of Associate Professor. A test shall be conducted by Project Monitoring Committee (PMC) at the end of the program and the certificates shall be issued to those participants who have attended the program and have qualified in the test. The minutes of the meetings, along with PMC report, are to be submitted to the Council at end of the program along with other mandatory documents.

- i. **GoI GFR rules** (@<https://doe.gov.in/order-circular/general-financial-rules2017-0>) should be followed during utilization of grant.
- j. This Sanction Order may be treated as Offer Letter for all purposes.

NOTE:- Any deviation from the above will invoke serious action against the Institute.

Yours sincerely,

(Col. B Venkat)
Director (FDC)

AICTE Sponsored Two week FDP on

“ 3D Printing Technology in Engineering Education and Research ”

3D printing is a useful Technology for Research and Development of various components ranging from simple structures used in daily life to complicated and intricate components in many areas like Medicine, Defence, Aerospace, Automotive and Art. It Empowers the innovators with huge design freedom to manufacture customized products and has potential to democratize the production of components, and goods from food to Medical supplies. This FDP will introduce to 3D printing and enable you to gain knowledge and skill in this promising technology by interacting with experts in the field.

Who can Apply

The program is targeted towards Faculty, Research Scholars from Academic Institutes, Industry and Consultant Professionals.

How to Apply

Interested candidates may apply by submitting the scanned copy of the Registration form given in the brochure to the given E-mail ID on or before 14th September 2021.

VISION OF THE INSTITUTION

To be a Leader in Imparting Value Based Technical Education and Research for the benefit of Society.

ABOUT THE INSTITUTION

AMC Engineering college with a vision to deliver quality education in an excellent academic environment from Primary to Ph.D. AMCEC was established under the Paramahansa Foundation trust and located in Bannerghatta main road. AMCEC is permanently affiliated to VTU, Belagavi, NAAC accredited, along with 5 UG programs have been NBA accredited in OBE format. AMCEC is certified with 2F status by UGC New Delhi and listed in NIRF ranking 2018 in Engineering with Rank Band : 151-200 and during 2020 with Rank Band: 251-300.

AMCEC offers 09 UG, 6PG Engineering program and MCA & MBA in management studies.

AMCEC has 09 research centers which are affiliated to VTU - Belagavi to pursue MSc Engineering and Ph.D.

VISION OF THE DEPARTMENT

To be Centre of excellence in the field of Mechanical engineering and meet the ever growing industrial and societal needs through best practices of Teaching, Training and Research.

ABOUT THE DEPARTMENT

Mechanical Engineering department established in the year 1999, offers 1 UG with an Intake of 120 and 1 PG program (M.Tech) in Machine Design. The department has Smart classrooms, well-equipped laboratories, committed and qualified faculties. The Academic activities of the department lays emphasis on deep understanding of fundamental concepts, development of creative ability to handle the challenges of real time problems, and the analytical ability to solve engineering problems which are Interdisciplinary in nature, through well established in-house product design studio and Center of Excellence in association with **TOYOTA** and **BMW** auto ltd. Department has many consultancy projects and Start-up products to its credit, preparing the students to face an ever increasing competitive and challenging society.

AICTE SPONSORED TWO WEEK FACULTY DEVELOPMENT
PROGRAM

on
3D PRINTING TECHNOLOGY IN ENGINEERING EDUCATION &
RESEARCH

PROGRAM REPORT

The AICTE sponsored 2-Week FDP was planned and organized in the department of Mechanical engineering, AMCEC from 20th September to 1st October on 3D Printing Technology in Engineering Education & Research. The summary of the FDP is given below.

| 20/09/2021 (Day 1) - Monday | |
|---|--|
| 09.00am-10.00am Registration | Registration, distribution of FDP kit with schedule/ FDP and Covid- SOP instructions were given to participants. |
| Inauguration 10.00 am -10.45am | Inauguration of the FDP was held at main seminar hall of AMCEC with the presence of Dr. Chikkanna, Regional Director VTU-Bangalore, Keynote speaker Dr.Tulasi Raman from IISC Bangalore, Dr.Mallikarjuna Babu, Director AMC Group of Institutions, Dr.Girisha C. Principal AMCEC, Heads of various department and Participants from different colleges. Dr. Chikkanna briefed about various funding opportunities and the need of FDP program. Dr. Mallikarjuna Babu and Dr. Girisha C briefed about the initiatives taken by the college for Quality Teaching and faculty trainings held at AMCEC. |
| Session-1 11-12 Noon Keynote address: | Inaugural function followed with Keynote address on Research opportunities in Additive manufacturing - Next Generation technologies by Dr. K. H. Thulasi Raman, Integrated Program Head ,COE for Additive Manufacturing, IISc Bangalore. Keynote address focused on the next generation of additive manufacturing including the state art of AM, current challenges and new processes & materials. Session highlighted the R&D works at IISc Bangalore, 4D Printing and future of AM in creating smart multi-functional products. |
| Session-2 12.00 Noon -1.30am | Technical session was held on "Bird eye view on Commercially available additive manufacturing Equipment" by Dr. K. H. Thulasi Raman, IISc - Bangalore. Session highlighted Selective Electron Beam Melting (SEBM) powder bed additive manufacturing system at IISc-Bangalore along with other Equipment's for industrial applications viz. direct metal deposition, electron beam melting, select laser sintering (SLS) or melting (SLM), among others. |

| | |
|--|--|
| <p align="center">Session-3 2.30 pm - 4.30 pm</p> | <p>Dr. Raju B. S. Professor from REVA University, presented a topic on "Introduction to additive manufacturing & 3D printing" in the afternoon session. Details on functional principles, advantages & disadvantages, AM process, present conditions of AM and future aspects of 3D was presented in the session with examples.</p> |
| <p align="center">21/09/2021 (Day 2) - Tuesday</p> | |
| <p align="center">Session-1 10AM -11.30AM</p> | <p>Dr. Veeresh Chandra M.S. Professor-SJCIT presented a topic on "Micro structural and Mechanical properties of AM". Session highlighted metallurgy aspect (grain growth) and processing science of metal additive manufacturing, mechanical properties of the AM products in terms of strength, shape and size, process related defects and post processing techniques in AM.</p> |
| <p align="center">Session-2 11.45AM-1.30AM</p> | <p>Session on "3D digitizing and Reverse engineering" by Dr. Veeresh Chandra M.S., Professor- SJCIT has thrown light on Reverse engineering involving measurement a physical object and how it is possible to reconstruct it as a 3D model to recover the original design intent in terms of simple surfaces like planes, cylinders.</p> |
| <p align="center">Session-3 2.30 PM-4.30 PM</p> | <p>Session on "Metal additive manufacturing technologies: Direct Metal Laser Sintering (DMLS) and Direct Metal Deposition (DMD)" was presented by Mr. Vinod A.R. - Scientist CMTI. Session highlighted the basics of DMLS and DMD, Latest Machines facilities at CMTI which based on latest technology of laser sintering of metal powder, Industrial products and tools developed at CMTI. He also explained about training courses on Additive manufacturing at CMTI-Bangalore.</p> |
| <p align="center">22/09/2021 (Day 3) - Wednesday</p> | |
| <p align="center">Session-1 10AM -11.30AM</p> | <p>Technical session on Materials for 3D Printing, was presented by Mr. Girishmurthy, Director-3D Printzkart. Session highlighted diverse 3D-printing materials which are selected based on the product and process as well as strength, shape and texture of the products. Session brought out in depth details on Materials related to Fused Deposition Modeling-thermoplastic filaments, Stereolithography- photo-reactive epoxy resins, Selective Laser Sintering- tiny polymer powder particles, metal 3D printing.</p> |
| <p align="center">Session-2 11.45AM-1.30AM</p> | <p>Knowledge on 3D printer files which are used to carry details from CAD model, encode 3D model geometry, appearance etc. is very essential for 3D-Printing. A session on "3D printing file formats and software" was presented by Mr. Girishmurthy, Director-3D Printzkart and his team. Among several files STL_Standard Triangle Language, OBJ _Wavefront OBJect, 3MF and AMF file formats are explained with reference to what makes them useful file, unique features, pros and cons.</p> |
| <p align="center">Session-3 2.30 PM-4.30 PM</p> | <p>STL Files Generation and Correction Steps related creation of model, building parts by layers,</p> |

| | |
|--------------------------------------|---|
| | slicing, generation of machine code (G code) to produce the required products are explained in this technical session by Mr. Girishmurthy, Director-3D Printzkart and team. Live demonstration of the Model creation, STL file generation and 3D printing was done by Fused deposition modeling. |
| 23/09/2021 (Day 4) - Thursday | |
| Session-1 10AM -11.30AM | Design for Additive Manufacturing was presented by Mr. Daniel and his team from Delta Rapid Technologies. Session underlined the design practices to handle complex part with ease and make product development process more economical. |
| Session-2 11.45AM-1.30AM | Design for Additive Manufacturing session was continued with case studies of 3D products developed for the space, aviation and medical industry. Adaptation of Industrial AM with digital tools are explained in this session. Case studies were based on products from Direct Metal Laser Sintering (DMLS) -metallic alloy and Selective laser sintering (SLS) using raw materials such as plastics, glass and ceramics. |
| Session-3 2.30 PM-4.30 PM | Mr. Padmaraju G, from ORIGIN D-FAB Pvt Ltd continued the session on Design for manufacturing and assembly. Day-to-day products were taken as case study in the session. Summary of the session included simplify the products through part reduction. Predict and reduce assembly time / manufacturing cost early in the design and product development cycle. |
| 24/09/2021 (Day 5) - Friday | |
| Session-1 10AM -11.30AM | "Artificial Intelligence for 3D Printing" technical session by Dr.Praveen, Numentrix Technologies. Session underlined the importance of combining Artificial Intelligence with 3D printing technology. Scope for automation of entire work flow of 3D process including quality prediction and new product development is explained in detail. |
| Session-2 11.45AM-1.30AM | Second session on "Artificial Intelligence for 3D Printing" was related to Optimizing the 3D printing process. Application of AI to analyze the printing parameters, controlling the process and prediction of quality of the part to be printed, avoid the error, optimum process /time is explained with case study aerospace sectors. |
| Session-3 2.30 PM-4.30 PM | Third session on Artificial Intelligence for 3D Printing highlighted the future scope, ambiguity related to threat of AI and AM. |
| 24/09/2021 (Day 6) - Saturday | |
| Session-1 10AM -11.30AM | "3D Printing of Foam" by Dr. Mrityunjay Doddamani - NITK, was conducted online due to unavoidable circumstances and the session was streamed in the youtube. (https://youtu.be/LQo4i56naLU) Foam applications, Research on synthetic foam at NITK, issues with other conventional methodology and FDM-3D |

| | |
|-------------------------------------|---|
| | printing of synthetic foam at NITK, process parameters and characterization of the 3D product discussed in this presentation. |
| Session-2 11.45AM-1.30AM | Dr. Shashishankar Professor and head in Civil engineering department of AMCEC highlighted and explained policies of "National Education Policy -2020" as part of awareness program insisted by AICTE. |
| Session-3 2.30 PM-4.30 PM | Hands on session Professor Shivaprasad from AMCEC gave training to create pattern by CAD software and generation of .STL files. Each participant was asked to make a pattern of their choice using solid edge CAD-Modelling. |
| 26/09/2021 (Day 7) - Sunday | |
| | Full day Session to build 3D Printing machine Fused deposition modelling (FDM) in our department is used for the purpose of demonstration. Prof.Madhumohan from AMCEC, dismantled the machine and explained each part in the morning session. The machine uses continuous filament made of thermoplastic. Heated printer extruder head moved under computer control is used to deposit on growing work in a definite shape. Session demonstrated 1. Connection of electronic parts to control board 2. Calibration of 3D printer 3. Installation of Arduino programming (Parameter settings according to the custom) 4. Hands on slicing software (Importing of .stl file, Parameters setting, Slicing of model) 5. Calibration of 3D printer 6. Printing of test parts |
| 27/09/2021 (Day 8) - Monday | |
| Session-1 10AM -11.30AM | Dr. U Chandrasekhar, Program Director-AddWize Wipro 3D Bangalore, presented session on " Metal additive manufacturing technologies and advanced AM materials " AM materials like Refractory metals, metal-ceramic alloys, which can withstand high temperatures and powder bed fusion process discussed in this session. Advanced materials like high performance PMC, polymer, ceramic 3D printing in AM which are difficult to shape using traditional manufacturing technologies are discussed in the session. Session underlined the revolution brought out by AM technology for simplified product with no joint made by multiple materials and minimal post processing. Novel approach of AM for reconstruction of obsolete parts, AM in repair is discussed along with other potential advantages of AM technology. |
| Session-2 11.45AM-1.30AM | Dr. U Chandrasekhar continued the morning technical session with the topic "AM applications in Aerospace, Automotive and Industrial sectors". Session highlighted the complex parts made easy at AddWize Wipro3D and research |

| | |
|---|---|
| | being carried out on AM product development by Wipro-IISc joint projects. Structurally complex, both metallic and nonmetallic AM parts in the above-mentioned fields are underlined viz. Direct Digital Manufacturing, Rapid Prototyping and Rapid Tooling. |
| Session-3 2.30 PM-4.30 PM | “Binder jetting and Electron Beam Technologies” was addressed by Dr. U Chandrasekhar in the afternoon session. Highlight of the session was related to working principle, characteristics, commonly used binder jet materials, benefits and limitations of above AM process. Features of EBM for titanium 3D parts, quality of the finished product and recent developments are underlined in this session. |
| 28/09/2021 (Day 9) Tuesday | |
| Session-1 10AM -11.30AM Session-2 11.45AM-1.30AM | “Polymer 3D Printing Processes” morning 2 sessions addressed by Mr. Thriloknath Reddy, Founder-Enlight 3D. Session had displayed many AM products developed by Enlight 3D from day-to-day simple components to complex parts. Thermoplastic material like polylactic acid, ABS, PET, PEGT and nylon are discussed in the session. Slicing of CAD model, orientation and support structures are discussed by using the displayed products. Polymer 3D process like Stereolithography (SLA), Selective Laser Sintering (SLS), PolyJet, Digital Light Processing (DLP), Multi Jet Fusion (MJF) and selecting right 3D-printing process based on strength and suitability of each process discussed in this session. |
| Session-3 2.30 PM-4.30 PM | The Role of 3D Printing in Medical Applications technical session by Dr.Sagar M.Balgidad, Professor from CMRIT. Session started with brief history to concept modelling, functional modelling, fashion, construction field and detailed application 3D in medical field including number of organs, bio compatible polymers, ceramic implants, metal implants (hip joint, knee joint etc) are explained with examples in this session. |
| 29/09/2021 (Day 10) - Wednesday | |
| 9AM to 5PM | Industrial Visit/ CMTI One day industrial visit was arranged to Central Manufacturing technological institute Bangalore. Visit at CMTI started with presentation authorities on the CMTI-facilities, training courses. Mr. Vinod and Mr. Manjunath scientists at CMTI gave brief presentation on overview of AM technology, CAD Pre-processing, slicing, design for AM and 3D printing facilities. There after facility visit started in 3 groups considering SOP of COVID-19. Industrial AM products live demonstration was given on facilities Direct Metal Laser Sintering AM machine, Direct Metal Deposition (5 axis) AM machine, Rapid Tool, micro stereolithography. Visit ended with feedback, interactive session. |

| <p>Session-1 10AM -11.30AM</p> <p>Session-2 11.45AM-1.30AM</p> | <p>Morning session was presented on "Anatomy and Pivotal parameters" by Prof. Madhu Mohan, Head-Dept. of Interdisciplinary Research, AMCEC.</p> <p>Session discussed about the crucial process parameter in particular errors related geometric dimension & tolerance on the quality of the part. An approach to identifying optimal orientation to build 3D part in terms of minimum volume of support structure highlighted in this session. Hatching pattern, staircase effect on surface finish, slice thickness, part build orientation, thermal errors, energy expended and part accuracy are few major parameters detailed in this session.</p> |
| <p>Session-3 2.30 PM-4.30 PM</p> | <p>"Reverse Engineering and Rapid Prototype in 3D Printing" by Dr. Raju B. R. Professor & HOD from The Oxford College of Engineering.</p> <p>Technical session highlighted the need of reverse engineering and rapid prototyping, Steps followed in RE / Rapid prototyping. Examples of product development by Rapid prototyping.</p> |
| 01/10/2021 - Friday | |
| <p>9.45 AM to 1.30 PM</p> | <p>Last day of the FDP, CAD model created by participants are 3D printed by FDM facility at Mechanical department of AMC EC.</p> <p>Mandatory test was conducted to understand the outcome of the FDP. Assessment was conducted for 100 marks, by giving 50 MCQ in the allotted 75minutes. 60 Marks was set as passing marks for obtaining the FDP certificates. Total of 52 participants took the test and were eligible to receive the FDP certificate.</p> |
| <p>2.30 PM to 3.45PM</p> | <p>FDP closed with Valedictory function & Certificate distribution, Feedback by participants on FDP in the presence of Dr. Mallikarjuna Babu director AMCEC, Dr. Girisha C, principal AMCEC, heads of various departments of AMC Engineering College.</p> |

Technical Session on : 3D Printing of Foam by Dr.Mrityunjay Doddamani-NITK Surathkal

- Dr. Mrityunjay Doddamani is an Assistant Professor of Mechanical Engineering at National Institute of Technology, Surathkal, India.
- His research is focused on Lightweight composites synthesized by Industrial scale manufacturing routes and 3D Printing.
- Dr. Mrityunjay's research has been supported by various funding agencies in India and Abroad.
- He is a recipient of Visiting Scientist Fellowship by Office of Naval Research, USA.
- He has published over 70 journal publications and serving as an Editorial board member on Materials Circular Economy Journal by Springer-Nature.
- He is inventor of 2 Indian patents and co-founded a start-up in the area of 3D printing.

Program Monitoring Committee report

The program monitoring committee comprising the chairperson, member secretary and three members (3), have monitored the complete program from start to the end and herewith submitting the report on FDP conducted.

With respect to the letter with Ref. No. 34-67 /99 /FDC/FDP /P-1/2019-20, the institution has planned and decided to conduct offline FDP in the month of April-May 2020. Due to pandemic and lockdown, it was decided to postpone and a mail has been sent to AICTE seeking permission to postpone FDP whenever the circumstances are in favour. Institution decided to organize the FDP in the month of September 2021.

According to the guidelines initially PMC was formed and at regular basis the committee has conducted meetings to see the program to be executed as per the regulations.

The FDP was scheduled from 20th September to 1st October 2021 and invitations were sent to all the colleges and institutions under VTU and AICTE. The same has been mailed through mail to the AICTE also.

Total 128 participants from different institutions showed interest by sending the filled registration form among which 56 participants were able to confirm their participation and intimated through e-mail.

The speakers were contacted and the dates were confirmed with them along with the topics to be covered. The distinguished guests were contacted and briefed about the program along with the area of interest. Finalization of guests was done in the meeting.

Committee was formed among department faculties for looking after food, accommodation, reception and purchase.

On 20th September 2021 the program started with inauguration of FDP in the presence of Chief Guest Dr. Chikkanna Regional Director VTU-Bangalore, Keynote speaker Dr. Tulasi Raman from IISC Bangalore, Dr. Mallikarjuna Babu Director AMC Group of Institutions, Principal and Heads of various department and Participants from 30 colleges.

This FDP focused on various aspects of 3D Printing Technology covering the basics to latest developments happening in the area. 12 days FDP was effectively able to create and disseminate knowledge on various aspects of 3D additive manufacturing, apart from generating new knowledge and technologies useful to the mankind.

Sessions were handled by experts from the field of 3D additive manufacturing both from Academia and Industry. Research opportunities were well articulated by Dr. Tulasi Raman from IISC who into developing future EBM for AM. Dr.U Chandrasekhar Wipro underlined the need to adopt to the digitized manufacturing as a necessary tool to prepare Industry ready quality students.

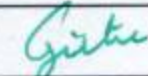

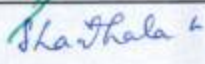

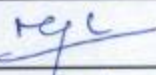

We had 2-day live demonstration of 3D printing of parts, apart from dismantling and rebuilding of 3D Printing machine by Prof. Madhumohan and team from AMCEC.

We have seen many 3D parts Micro to Macro, Intricate to Complex, made from variety of materials for applications ranging from rocket, aerospace, medical, building structures and fashion to art.

Dr. Praveen from Numetrix technology underlined the co-existence of Artificial Intelligence and 3D Printing technology. 3D Printing parameters, mechanical strength aspects and software interfaces were articulated expert resource persons.

Session on National Education Policy by Prof. Shashishanker, HOD, Civil highlighted teacher centric policy and need of bridging the social gap in participation and learning out of education. We had an opportunity to see and interact with experts for latest happenings and facilities in the additive manufacturing at CMTI-Bangalore.

On a positive note, this FDP highlighted the need to adopt to the demand and supply and Faculty training is essential for changing needs in the industry 4.0 framework, digitized manufacturing for a quality fit output.

A meeting was organised and conducted including the PMC and with reference to the guidelines of AICTE Letter Ref. No. 34-67 /99 /FDC/FDP /P-1/2019-20 following points were discussed

1. Allotment of work to the faculties with respect to FDP
2. Finalization of program schedule
3. Shortlisting of participants from different colleges and organisations
4. Finalisation of registration format
5. Finalisation of invitation
6. Finalisation of certificate format
7. Finalisation of test procedures and number of questions based on which the marks should be allotted.
8. Finalisation of guest for Inaugural and valedictory function.

The committee has arrived at some conclusions with respect to the above-mentioned points.
